In your code, you have MC_capture0 In your styles, you have .m[float:left; margin-right: 5%; padding: 5px; width: 90%;] As you see, here is the div having float:left property, if you add clear:left; to the style then it will cause the .m to start from the beginning of the page, not the element you expect. So you need to change your css to .m { float:left; margin-right: 5%; padding: 5px; width: 90%; clear:left; } Demo Hepatic metabolism of icv administered epinephrine. The purpose of this study was to investigate the liver metabolism of epinephrine after central administration. The principal findings were: 1) The hepatic metabolism of epinephrine in conscious rats was limited compared to that in anesthetized rats. 2) Rats were not good inducers of hepatic metabolism of epinephrine, but were similar to anesthetized rats in their ability to increase metabolic clearance of the agent. 3) Plasma levels of epinephrine and its metabolites after icv administration remained stable during a 2-hr period, and were similar in conscious and anesthetized rats. 4) The blood levels of epinephrine were more limited in conscious rats than in anesthetized rats. Our data indicates that epinephrine is metabolized much more effectively by the liver after central administration than it is by the liver after systemic administration.
