Adjust your Windows desktop by adding your most used icons and even an icon of your choice to it. Macintosh Icons Windows will allow you to bring you Mac Icons onto your Windows desktop. The best part is you will be able to place them on your desktop in a total of 10 categories, decide their color to be transparent or not and place them all over the desktop. You may then choose the style of icons you want to be added to it. Macintosh Icons Windows Features: Windows XP / Vista / 7 Categories of Mac Icons: Transparent Icons - Choose the size of your icons and set them to transparent or set the size of the image itself. You have the option of

---

choosing a particular icon for the different categories of the desktop. Windowed Icons - Create your own icon of two windows with and icon of your choice. You can even set the colour of that icon. Macintosh Icons Windows Requirements: OSX 10.4 - 10.6 Categorize Icons: About Me Michael is a freelance writer and avid computer enthusiast who loves to review software and share tips and tricks with readers. He is also known as the editor of the free ISO Master software which is designed to help users create bootable USB and internal hard drive installers for Microsoft Windows ISO files. **Q: Probability: Balls in a box** We have four white balls and three red balls in a box. The balls are removed in the following way: We remove one ball at random and replace it, then remove another ball at random and replace it and so on. Repeat this process until a red ball is left. What is the probability that we have at least one red ball left? **A:** Let

Macintosh Icons Windows is an application that creates icons from the content of the Mac applications themselves. That means that just by dragging and dropping the icons from this application to your Windows desktop, you will have your Mac applications art on your computer screen. It's just like that. But now, you can drag and drop icons from your Mac's finder, the main menu and more. You will be able to have all your Mac application icons on your Windows PC. It will give your desktop the image of your Mac, the same we all enjoy in Mac. All you need is Mac icons. Macintosh Icons Windows converts those icons to

---

Windows. It does that so easily you will surely fall in love with Mac on your Windows PC. If you are curious to know more about this application, then check out the previous review. So, you are ready for Mac icons on your Windows computer? Then go ahead and get started. Ok, so you know what to do. Go ahead and drag and drop your Mac icons to the Windows desktop. It's that simple. It will prompt you a window like in the figure bellow: It will give you a list of Mac icons that you dragged and dropped to the Windows desktop. The list will show the apps, the root volume, and a few others. But you may be curious to know where did these icons come from. Macintosh Icons Windows is a free utility. In other words,

---

this application is completely free to use and it has no right to ask for your money, your email addresses or any other personal information to make you pay. So, you can freely get this application and use it without any problem or complaint. Go ahead and click the Install button to grab this software for your Windows PC and you will have Mac icons on your PC screen. In case you need more, then you may take a look at our post on Mac Icon Finder. As always, we want to hear back from you. We love to hear what are you thoughts on this application. We also love to have your feedback on how we can improve our blog here. Search Mac Icon Finder Post navigation
