Download

The app requires a hardware key to be installed, but .Net Framework can be installed at any time. I can't find any documentation on how to use it. I believe this should be installed on Windows. I can download .Net Framework but I don't know how to use it. There are several ways to install .Net Framework. I only see the two ways that I found to find on the Microsoft website. The first way is to install the .Net Framework using the standard Windows Installer.
